1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Permission to make the amendment was granted in a telephone interview with Mr. John McGlew on March 21, 2005. No extension of time is needed as noted below.

The application has been amended as follows:

In the specification at page 1, section (0001) in line 2 of the section after the date "August 8, 2001" the phrase --, now U.S. Patent No. 6,699,415-- has been inserted.

In claim 1, line 12, after the word "level" the word --of-- has been inserted.

The change to the specification updates the status of the parent application. The insertion of the word "of" before the phrase "the planar surfaces" corrects an obvious minor typographical error and makes the language consistent with similar phrases in claims 4 and 8. Both amendments correct formal matters not previously required by the examiner and do not change the scope or substance of the presented claims, which were placed in allowable condition by the filing of the

amendment after final on 07 March 2005, therefore no further extension of time is needed (MPEP 706.07(f)).

2. The following is an examiner's statement of reasons for allowance: see section 6 of the office action mailed 18 November 2004. The independent claims have all been amended to contain the limitations discussed in said section 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Watkins III whose telephone number is 571-272-1503.
